Dear Industry Colleagues,

Greetings!!!

Safety is a very pertinent subject today. Safety guarantees protection from untoward situations that may arise without any prior notifications. Safety ought to be a habit not an imposition by law.

Safety industry in India has grown tremendously in past few decades. During pandemic safety fraternity very skillfully addressed the concerns and worked tirelessly for the uninterrupted supply of PPE kits when it was required desperately.

Many of us also comply with safety norms in our manufacturing units.

I appreciate the efforts of "D V Enterprises" & Mayur Lalit (Director, D V Enterprises) for the conceptualization of the same & wish him luck for his work.

Dear Industry Friends,

Greetings!!!

Today, safety at work place is the most pertinent subject in the safety world. Negligence of safety may lead to temporary or permanent disability or worker may lose his/ her life. These devastating incidents not only affect the victim but entire family becomes victim. We have no technology to revive a deceased person and that is why it is said “Prevention is better than cure”. Safety is preventive measure to avoid such kind of ugly occurrences.

Best national and international brains are working to address the concerns over safety. A lot has been done but a lot still has to be done. Planners and experts plan and place forth problem and industry technocrats and manufacturers put forth solutions on the ground. Channel partners ensure the availability to the users. The common objective of all set of industry components to ensure safe working environment.

“Safety Industry Directory” is a knowledge gathering platform through which user can select best safety options with cost effectiveness. Hence it is also a very vital part of the industry.

I congratulate “D V Enterprises” for their endeavor.
